Summary

I am Pradeep Kumar Reddy, a highly motivated and dedicated student pursuing a B.Tech in Computer Science Engineering from Gates Institute of Technology. I possess a deep passion for coding, evidenced by my completion of numerous online courses in prominent programming languages such as Java, Python, and C++. Moreover, I excel in web development and have successfully undertaken several projects utilizing HTML, CSS, and JavaScript. Currently seeking an internship opportunity to further enhance my expertise and gain invaluable hands-on experience in the dynamic realm of software development.

Skills

Software developer : C++ • Java • Data structures c++ • Html and css • Python • Data analytics • Data entry • Sql • aws

Language : English

Experience

Engineering core

Work from home

Mobile app development

05/2023 - 07/2023

- Developed and deployed innovative mobile applications for both iOS and Android platforms, incorporating user-centered designs and leveraging cutting-edge technologies.
- Collaborated with cross-functional teams to gather requirements, plan project timelines, and ensure seamless integration of features, resulting in timely delivery of high-quality mobile apps.
- Conducted thorough testing and debugging of mobile applications, identifying and resolving issues to enhance overall performance and user experience.
- Implemented continuous improvements and updates to existing mobile apps, staying up-to-date with industry trends and best practices to deliver optimal functionality and user satisfaction.

Accenture

Work from home

Data analytics and data visualisation

05/2023 - 07/2023

- Implemented and executed data analytics strategies to efficiently identify trends, patterns, and insights, leading to enhanced decision-making and overall business performance.
- Utilized Tableau and Power BI to develop visually compelling dashboards and reports, effectively conveying intricate data findings to individuals without technical backgrounds.
- Fostered collaboration with cross-functional teams to collect and analyze data from various sources, extracting practical insights and presenting actionable recommendations for process enhancements.
- Conducted meticulous data cleaning, transformation, and validation procedures to guarantee the accuracy and dependability of data utilized for analysis and visualization.

Tata Consultancy Services

Work from home

Esg virtual internship

05/2023 - 05/2023

- Evaluated and assessed client requirements to determine optimal solutions for sustainability initiatives.
- Analyzed and compared various sustainability solutions to identify the most suitable options.
- Presented a comprehensive fitment matrix to effectively communicate the alignment between client needs and recommended strategies.

Education

Jeevananda English medium high school

Dharmavaram, India

Lkg to 10 class | GPA: **9.5** / 10

06/2006 - 05/2019

Nri junior college

Vijayawada

Intermediate | GPA: **751** / 1000

06/2019 - 08/2021

Gates institute of technology

Gooty

Bachelor of Technology | GPA: **77.31** / 100

12/2021 - Present
